BP Truckstop Network

Please note that due to the Truckstop network now accepting a variety of credit cards and not just the BP Fleet Card, BP have decided to show the prevailing pump price at their truckstop network and not the National Card Price (NCP) which the fleet discounts are based on. This is due to many that use the truckstop network and do not receive a discount off their fuel purchases.

When you check your receipt, it will show the prevailing pump price, but your discounted price will always be calculated from the NCP. To check the current BP NCP, just go to the ARFAI web site.
