Volume 6 Issue 3
1 December 2017

Card holders are still experiencing difficulty using the Mobil Pay at the Pump facilities.

We have reprinted the instruction as given to us by Mobil below, but remember if you are experiencing difficulty call the 0800 number on the back of your card.

Pay at the Pump Mobilcard instructions

Insert card and following the prompts on the screen Pressing the green circle button to confirm each stage You will be asked what transaction you want e.g. "Purchase Fuel" everything else is pressing the green circle icon button

E.g. Odometer Reading at the start and if you choose not to, just press the Green Circle to over-ride and carry on to the next stage of purchase

The display then requests that you select which fuel you wish to purchase- please select a fuel Lift nozzle and start pumping

Pay at Pump will cancel the pay at pump transaction if the card holder lifts the nozzle and returns it to the bowser with-out fuelling

The pump will cancel the transaction if the nozzle is not lift-ed within 3 minutes

Once a transaction has been cancelled there is an auto-matic stand down period of 10 minutes regardless if you try another terminal or attempt to use your card in store. The service station has no control over this.

Cardholders should ensure that they pick up the correct nozzle for the grade required.

Option for Unleaded 91, Unleaded 95 or Diesel

BP TRUCKSTOP NETWORK

When you are travelling around looking for a truckstop, remember that the BP Truckstop price for diesel is some **20 cents per litre cheaper than Mobil or Z.**

Of course it may well be cheaper at the service station with your discount off the pump, but it is worth remembering if you prefer to fill up at the truckstop networks. The BP truckstop maps are available upon request.

Mobilcard & PAK'nSAVE

The ARFAI Mobil Card can be used at any Pak n' Save petrol or diesel pumps. Card holders will save 10cpl off the displayed price. Please remember that Pak n' Save fuel vouchers can not be used in conjunction with the fuel card—its one or the other.

A full list of Pak n' Save outlets is available from the ARFAI web site under the "Mobil Site Locator" heading.

RUC & MVL WITH ARFAI

Reminding you, that we are approved by LTNZ to issue RUC and Vehicle Licences, so all you need to do is call, fax or email us and we will take care of your requirements.

Please note that this service is not available at weekends or public holidays. For same day service, please call before 1pm.

REMEMBER TO CHECK YOUR TYRES!

Tread depth and tyre pressures are important. Also check the inside of your tyre as faulty alignment will cause the tread to wear excessively without you noticing it.

Our office will be closed from 10:00am on 22 December 2017 until 06:00, 8 January 2018. For urgent inquiries, please contact Jim Berry on 021 927581.

The team at ARFAI would like to take this opportunity to wish all our card holders a wonderful Christmas, best wishes for 2018 and safe motoring through the holiday period.

Practical Christmas Gifts

We have sourced two new convenient and powerful devices that will suit the camper's amongst us and those who just want an alternate power source to charge their electronic devices such as smartphones, tablets, cameras, camcorders, GPS unit, MP3 players, wireless headphones, and portable gaming systems on the go. Both units will easily "jump start" your vehicle (12 volt system only), but they are not designed to charge your car battery. The "camping" unit comes with a portable air compressor that works with the charger to inflate a variety of things from tyres to beds and comes with two connectors that will fit most situations. This unit comes with a USB charging port as well as a multi voltage charging port complete with an array of adapters for your special requirements.

COMPLETE WITH AIR COM-

Capacity: 12000mAh, 44.40Wh
Output voltage: 19V, 16V, 12V.
Dimension: 165*80*32mm
USB output: 5V 2.1A
Charge mode: CC/CV 15V/1A
Start current: 200A
Peak current: 400A (3S)
Cycle life: 1,000 times
Capacity: 44.40Wh
Operating temp range: -20° to 60°

This unit comes with a USB charging port as well as a multi voltage charging port for your special requirements.

Voltage at auto start end 12V
Capacity: 13600mAh, 44.40Wh
Dimension: 174.5*78*32
